Jubilee Street Party

Despite the rain, over one hundred villagers
turned out with family and friends to join in the
fun and games to celebrate the
Queen's Platinum Jubilee.

Phoenix Radio provided us with non-stop music
and there was food and drink a-plenty. Thanks to
everyone who contributed in any way. It has been
a long two years of the pandemic, so it was a
chance to meet up with each other again.

OPEN GARDENS AND STUDIOS

It was 2018 when we held our last full open gardens weekend.
This year's event felt as if the village was doing what Midgley does well, again!
Despite the weather forecast, it didn't actually rain and people came from
near and far. 509 tickets were sold and over £4,000 profit was made.
This money goes to keep the community building maintained and funds
other projects in the village.
Visitors were complimentary about the wonderful views, the variety of gardens,
the range of homemade food on offer and the friendly atmosphere.
A very special 'thank you' to all the villagers who opened their gardens and
studios because without you, the event would not be possible.
Also thanks to all the bakers, caterers, musicians and choir and anyone else who
helped to make the event so successful.

WINE TASTING EVENING

Saturday 12th November 7pm for a 7.30 start in the Community Room
only £16 per person.

A popular night out – filled with fun and frivolity. This evening is a 'Call My Bluff' of wine tasting.

A sparkling wine will be served, followed by six different wines.

Descriptions of each wine are read out and the quiz is to identify the correct description for the
wine you are drinking.

Bread, dipping sauce and nibbles are provided, followed by a steak pie supper with a
vegetarian alternative.

Payment must be made when you put your name down as the wine has to be specially
purchased.

NB. Places for this event go quickly, so please put your name down and pay in the shop.

Midgley Village Talks

Before 2020, Midgley Social Group arranged talks in the Community Room over the winter months.

We enjoyed listening to speakers on a wide variety of interesting topics. It would be great if they could re-start. So we are looking for someone who is interested in sourcing speakers and making the necessary arrangements with them.

Midgley Social Group will do the advertising, arrange the room and refreshments etc.

If you would like to take on this role, Midgley Social Group would like to hear from you.

What is Neospora?

Recent fine weather and a post-lockdown desire to be in the countryside is raising concerns among local farmers about a spike in deadly neospora infections in cattle. This disease, which results in abortions, still births and infertility in cows, is caused by cows eating grass, silage or hay from fields contaminated with dog poo containing eggs from the parasite neospora caninum.

This contamination lasts on fields for six months.

Dog owners don't realise that their dog might be infected with neospora, and probably may not be aware that their dog's poo is dangerous to pregnant cows. Once inside the cow, the parasite is deadly, often resulting in abortion or premature calving, or infected calves.

When walking your dog through fields, whether cows are present or not, please pick up your dog's poo.

It is your responsible attitude that can save an animal's life.
